

## Front-end Web Developer

### Description

Bullpen Strategy Group (BSG) is an insights-focused public affairs advocacy and strategic advisory firm specializing in analysis, communications strategy, and project management to help clients solve problems, grow, and manage risk.

We are seeking an entrepreneurial Front-end Web Developer to join our growing team of technologists.

### Qualifications

The ideal candidate will share ownership in the company's products and strategic initiatives while collaborating with a team of developers and designers. Our technology group operates at the nexus of public affairs and innovation.

### Responsibilities

- Creating reusable, effective, and scalable JavaScript code.
- Design the data and presentation layer for our web applications' front-end interfaces.
- Use additional JavaScript libraries such as Redux to manage the web application's state, derive computed data from the state of the system, and make asynchronous API calls.
- Translate clients' technical requirements into code.
- Text and update web applications so they can be used on major web browsers.

### Required Skills

- Highly proficient in JavaScript, modern JavaScript, HTML, CSS
- Highly proficient in rendering data to the DOM using React.js
- Highly proficient in one or more libraries (e.g. Redux, React Router, etc.) for state managing and routing.
- Proficient in using Git as a control system
- 2+ years of professional experience in React.js
- English language proficiency
- Experience developing WordPress

**Application Instructions:** To apply for the position, please email a cover letter resume via email to [hr@bullpenstrategygroup.com](mailto:hr@bullpenstrategygroup.com) with subject line "Front-end Dev"
